

Item	Notes	Outcomes	
1 Chairman Report	SWCX is the league with the lowest number of rounds. This is for a number of reasons but more commissaires and race organisers would be needed to rectify this.		
	Thank you to everyone who has volunteered or supported a round		
2 Treasurer report	Loss made this year of roughly £1500		
	Part of this was supporting a national round and then one off expenses		
	We saved money on numbers due to chip timing changes - roughly around half the price		
	We need to keep an eye on the expenditure.	All to ensure that any expenses are necessary

4 First Aid	Devon First Aid small cost increase - £175per round, last year was £150 per round		
	Proposal that the league covers the difference for the Redruth round OR event organisers pay an extra £5 to cover.		
	Nick is going to speak to first aid to split this out. Organisers are happy for this		
5 Chip Timing	Timing now costs £2.50/ rider + £200 as a one off cost to get everything set up and admin sorted.		
	Ankle straps are better and presented less issues. These were purchased by the league last year and are able to be used again this year.		
	How to pay the £200 - come out of league registration

	Explain the justification for what the numbers cost.	Martin - FB
